PROFESSIONAL SUMMARY

Java Full Stack Developer skilled in building responsive, component-based web applications with React.js, Java, and Spring Boot, backed by MySQL. Experienced across the development cycle: designing REST APIs and JWT-secured backends, and building reusable frontend interfaces with React Hooks. Completed a Full Stack Java Development internship and currently undergoing full stack Java training at Teks Academy, Hyderabad. Seeking a Full Stack Developer role to build scalable, high-performance web applications.

EDUCATION

B.Tech – Computer Science & Engineering 2022 – 2026
Sri Venkateswara Institute of Science and Technology | CGPA: 7.8

Intermediate – MPC 2020 – 2022
Sri Venkateswara Junior College | Percentage: 65.9%

SSC 2020
ZPHS Pedda Gopavaram | GPA: 9.2

SKILLS

Languages: JavaScript, Java, Python, SQL
Frontend: React.js, React Hooks, React Router, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design (Flexbox, CSS Grid)
Backend: Spring Boot, Spring Data JPA, Hibernate, REST APIs, JWT Authentication, Maven
Database: MySQL
Tools: Git, GitHub, VS Code

PROJECTS

Job Portal Web Application (Full Stack) | Live Demo May 2026
React.js, Java, Spring Boot, MySQL, Git

- Built a full-stack job portal end-to-end: designed the React.js frontend and developed the Java/Spring Boot backend with a MySQL database, handling both client-side and server-side logic.
- Developed 15+ reusable React components using Hooks (useState, useEffect), improving code reuse and maintainability.
- Designed and integrated secured REST APIs with proper error handling, loading states, and client-side form validation.
- Implemented client-side routing with React Router and job filtering by location, role, and employment type, with a fully responsive Bootstrap UI.

Recipe Finder Web Application (Frontend) | Live Demo Apr 2026
React.js, JavaScript, REST API, Git

- Built a React.js recipe discovery app where users search and filter recipes, then open any recipe to view full ingredients and step-by-step preparation.
- Displayed a cooking difficulty level (Easy, Moderate, Difficult) on each recipe so users can compare and choose recipes that match their skill.
- Integrated a REST API to fetch recipe data dynamically and render it through reusable components.

INTERNSHIPS

Full Stack Java Development Intern — ExcelR (with APSCHE) May – Jul 2025

- Built REST-based web application modules end-to-end, covering backend design, database integration with MySQL, and API development, as part of a structured full-stack Java curriculum.

TRAINING & CERTIFICATIONS

Full Stack Java Training — Teks Academy, Hyderabad (ongoing) Mar 2026 – Nov 2026
Artificial Intelligence Virtual Internship — SkillDzire (with APSCHE) Dec 2025 – Mar 2026
AI & Data Analytics Virtual Internship — AICTE | Edunet Foundation | Shell India Jul – Aug 2025
Python for Data Science — NPTEL, IIT 2024
